Claims 20-24 have been withdrawn from consideration as being non-elected.

Claim Objections

1. Claims 1, 3-11, and 13-19 are objected to because of the following informalities:
claims 1 – lines 2 and 3 and claim 11 – line 4, “a first and second layer” should be changed to -- first and second layers”.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 3, 4, 11, 13, 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Gill et al (U.S. 5,701,222). Note figure 9 which shows an AFM layer 137 between first and second layers 135,139 such that the AFM pins the first and second layers and the magnetization directions of the first and second layers are antiparallel as shown by arrows 134,136.

Allowable Subject Matter

4. Claims 5-10 and 15-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
